Tennessee Pain Society Annual Meeting Exhibitors 2019

(Alphabetical Roster)

Whether your patients experience precise or pervasive* pain, our advanced approach to neuromodulation, with two superior and proven therapies, gives you the opportunity to provide better relief.**²⁻⁴ Our proprietary dorsal root ganglion (DRG) therapy targets certain intractable focal pain of the lower limbs caused by CRPS,² while our spinal cord stimulation (SCS) therapy, with revolutionary BurstDR™ stimulation,^{***} helps relieve pain felt broadly in the back, arms and/or legs. With Abbott, you can maximize patient outcomes by tailoring relief—because all pain is not equal. Additionally, our radiofrequency ablation portfolio provides a minimally invasive alternative to back pain management. www.abbott.com

AIS™ HealthCare provides sterile, patient-specific intrathecal pain pump medications for the management of chronic pain. AIS 503A pharmacy services are supported with Advanced Nursing Solutions, providing physicians and patients with in-home pump refills, and a patient-centric Care Coordination Center that assists patients in achieving self-management goals and optimal wellness. www.aiscare-group.com

Alexion is a global biopharmaceutical company focused on serving patients and families affected by rare diseases through life-changing therapies. Low ALP activity is the biochemical hallmark of Hypophosphatasia, a progressive, systemic, inherited metabolic disorder caused by loss-of-function mutations in the ALPL gene. HPP symptoms may include bone, muscle, or joint pain. Low ALP activity is often the only factor that differentiates HPP from other diseases. www.alexion.com

Amgen is one of the world's leading bio technology companies. Amgen is a values-based company, deeply rooted in science and innovation to transform new ideas and discoveries into medicines for patients with serious illnesses. www.amgen.com

AVANOS

Avanos is a medical device company focused on delivering clinically superior breakthrough solutions that will help patients get back to the things that matter. Headquartered in Alpharetta, Georgia, Avanos is committed to creating the next generation of innovative healthcare solutions which will address our most important healthcare needs, such as reducing the use of opioids while helping patients move from surgery to recovery. Avanos develops, manufactures, and markets its recognized brands in more than 90 countries.

www.avanos.com

Basic Home Infusion specializes in providing pharmacy and nursing services for intrathecal pumps nationwide for chronic pain and spasticity. Over 30 years of unmatched experience and reputation providing patient specific medications, at-home pump refills, dose titrations and MRI support, with excellence in safety, quality, service and access to optimize therapeutic outcomes and improve quality of life. www.BasicHI.com

BioDelivery Sciences (BDSI) is a rapidly growing commercial-stage specialty pharmaceutical company dedicated to patients living with chronic conditions. BDSI is utilizing its novel and proprietary BioErodible MucoAdhesive (BEMA®) technology and other drug delivery technologies to develop and commercialize new applications of proven therapies aimed at addressing important unmet medical needs. www.bdsi.com

Boston Scientific

Advancing science for life™

Boston Scientific's Illumina 3D™ Portfolio personalizes therapy by delivering multiple waveforms to a precise neural target. This portfolio of devices includes Precision Spectra™ - the world's first and only 32 contact SCS device, Precision Montage™ MRI – giving patients access to full-body MRI scans, and Precision Novi™ - the smallest, thinnest high-capacity non-rechargeable device. www.bsci.com

Nevro's Senza[®] system, the only SCS system that delivers Nevro's proprietary HF10 therapy, an advanced SCS therapy that provides electrical pulses to the spinal cord at a rate up to 10,000 per second (10 kHz). www.nevro.com

Nuvectra[®] is a neuromodulation company committed to helping physicians improve the lives of people with chronic conditions. Nuvectra's Algovita[®] SCS system is approved in the United States and Europe for the treatment of chronic intractable pain of the trunk and/or limbs. To learn more about Nuvectra and our technologies, visit www.nuvectramed.com.

ONE Tennessee is a dynamic nonprofit healthcare collaborative paving the way for inclusive solutions to fighting the opioid epidemic in Tennessee. We strategically work to promote statewide cultural change among providers, organizations, and patients by serving as a centralized resource to coordinate and connect efforts to decrease opioid misuse and abuse across the state of Tennessee. We are committed to saving lives, preventing addiction, and promoting wellness. www.oneTNHealth.org

www.painexam.com

PainTEQ[™] is a Tampa based medical device manufacturer that focuses on providing breakthrough, FDA approved products that help patients eliminate chronic pain and provide a better quality of life. With our featured product, LinQ[™] for SI Joint Dysfunction we deliver an effective, minimally invasive solution for both patients and physicians. www.painteq.com

Pentec Health, Inc. is a Joint Commission accredited specialty pharmacy and infusion provider that specializes in providing comprehensive care for patients with implanted pumps treating severe pain and/or spasticity. Our proprietary electronic communications platform ensures all disciplines remain informed and focused on improving patient outcomes.”. www.pentechealth.com

At Salix, we know how important it is to deliver products that healthcare professionals (HCPs) want to prescribe. So, we provide treatments that effectively address a wide variety of **gastrointestinal (GI) diseases** for a wide variety of patients. www.salix.com

Synergy Laboratories provides comprehensive lab services throughout the Southeast by combining state of the art diagnostic testing with a commitment to superior patient-care. As a state of the art CLIA, COLA licensed full-service laboratory, Synergy specializes in Clinical, Infectious Disease, Women’s Health, Toxicology, Molecular and Genetic testing. A strong commitment to reducing the human and economic costs of healthcare has allowed Synergy Labs to expand its network of healthcare providers and payers. Synergy’s mission is to ethically serve the healthcare sector while striving to improve patient-care by delivering quality service and accurate results. www.synergytesting.com

We expect a lot from our doctors and other licensed health professionals – they are under constant pressure to perform and when caring for patients, there is no room for error. However, they are people, too. Like us, they can get stressed and burned out; they can suffer from mental or emotional illnesses, or fall victim to addictions or self-destructive behavior. When they do, like us, it can affect their careers and their families. But they are unique in that their illnesses and behaviors can impact the safety of others. The TMF Physician’s Health Program (PHP) was created to help them get better even as it works to protect and safeguard patients. Tennessee’s regulatory and healthcare entities know the special needs health professionals have and support the PHP as it steps in to assist physicians and other healthcare professionals in treatment, return to practice, and ongoing recovery. www.e-tmf.org

TerSera Therapeutics is an international biopharmaceutical company focused on improving patients' lives by identifying, developing, and commercializing meaningful products that address unmet medical needs.

www.tersera.com

Our goal is to deliver products and services that offer improved clinical outcomes and convenience for patients – but that also make solid business sense for providers. Our mission is to bring products and service lines to the market that will improve patient care and expand treatment options for healthcare professionals. www.tridentmedical.net

US WorldMeds is a specialty pharmaceutical company that develops, licenses, and brings to market unique healthcare products designed to improve the lives of patients with challenging conditions and unmet medical needs. www.usworldmeds.com
